SCHOOL CERTIFICATION

We certify that the research projects entered by students from our school have met the requirements of the Pittsburgh Regional Science and Engineering Fair. We encourage students to explore and investigate their world through inquiry-based research. We certify that our students' research complies with the International Rules for PreCollege Research ensuring the safety and well being of humans and animals involved in student research, as well as the safety and welfare of the student researchers themselves. We certify that each student researcher has been working with an adult sponsor who has a solid background in science and has closely supervised the student's research.

Sponsoring Teachers (at their school address) will receive PRSEF registration confirmations *which include their students' assigned project numbers* in early March. The students will NOT receive Science Fair registration material at their homes. Teachers are to distribute this information to their students.

Sponsoring Teacher's Signature: _____

Principal's Signature: _____
